

People who can only **use one arm** have great difficulty eating independently. This not only causes a lot of time to be lost, but also lowers the self-esteem of these affected individuals.

Theomatik® is a table aid lunch plate to allow people with one functional arm **to eat independently** again. Both at home and while on the move. Theomatik® helps make these people's limitations bearable, less noticeable, worry-free again. **Theomatik® makes eating easier and more fun again.** So it revolves around them again, not their problem.

We purposely made it a **very tangible & sensory product**, as the motor skills & occupational therapy element of promoting a person's ability to fulfill their daily routines and roles is crucial for elderly and/or **people in rehabilitation**. We also consciously chose for the orange color as this is the best color for people with a visual limitation and for people with dementia.

Next to giving back people their **independence, dignity & freedom** by allowing people to independently eat again, Theomatik® also helps **relieve the work pressure of healthcare personnel** as it allows them to focus on other tasks instead of having to spread sandwiches. Theomatik® not only offers added value to the user, but also offers a strong return on investment for the buying hospital, elderly home or rehabilitation center.

Theomatik®
by Bouncer™

Bouncer™ helps lift the self-sustainability of people through inclusive products and Activities of Daily Living (ADL) aids.

From butter and jam cups over yoghurt to beverage cans

The wedge-shaped openings are designed to clamp cups with a diameter ranging from 20 up to 70 mm.

Stackable Tray

The tray is designed for easy stacking with an eye for optimal space usage

Packaging cutter

This small safe cutting tool helps open all packaging bags such as sugar, tea, cheese or bacon, all one-handed.

Small lunch plate

In the small lunch plate you can lock a slice of bread in between the 4 raised edges. The lunch plate is also foreseen of antislip at the bottom and has pre-formed cutting shapes in the 4 raised sides to easily help you to cut your slice of bread to the bottom.

Antislip

For stability on tables and foodtrays, the bottom of every Theomatik® is equipped with antislip. This helps for a fixated tray when opening cups or cutting your slice of bread.
